MUD

Playing in the mud,

Playing in the mud.

I like to play in the mud
because I can make roads.

I can put water in it

like a stream.

I make trees and stick in leaves.

Playing in the mud,

Playing in the mud.

THE CAT RUNS AWAY

I know a cat
He lives next door
He once chased a rat
Across the floor.

He runs away
If he hears a sound.

THE CORONA VIRUS

There is a new virus,

It is called 'The Corona Virus'.

The scientists are working really hard to make new medicine to stop it spreading.

Children are all at home having fun.

I miss school and going out on yard for a run.

Everyone has to stay at home,

I go for walks to wave in at my Nana.

She had to stay at home.

We bake some food and bring it into her.

Nana gives us treats,

Lollies, jellies and sweets.

I miss my friends at school,

It's a pity I can't see them or go to the swimming pool.

Soon this will be all over,

And we can go back to everything, like dancing and school.

The Nana's can come out of their houses and we can all give them big hugs!

LITTLE COW

There once was a little cow,
He liked watching the farmer plough,
He was very healthy and sad,
But he always had to graze last.
The little cow would like a friend,
He liked to run from end to end,
While he was thinking he smiled with glee,
The little cow cried yippee.

I think I might share,
To show that I care,
I'd like to have a friend to play,
So he shared his grass on that day.
